## OCEAN HEALTH INITIATIVE

# Language Assistance

At Ocean Health Initiative, we are dedicated to providing high-quality healthcare to all members of our community. We understand that language barriers can make it difficult for some patients to access the care and support they need, which is why we offer free language assistance services to those who need it.

Our language assistance services are provided by qualified interpreters who are trained to facilitate communication between patients and healthcare providers. We offer interpretation services in multiple languages, including Spanish, Polish, Portuguese, and many others. We are committed to

all of our patients are able to communicate effectively with their healthcare providers, so they can get the care they need to stay healthy.

If you need language assistance services, please let us know. We are happy to provide an interpreter for your appointment, free of charge. To request an interpreter, simply contact us before your appointment and let us know what language you need.

In addition to interpretation services, we also provide translated materials to help our patients better understand their healthcare. We have a range of educational materials, including brochures, flyers, and other resources, that have been translated into multiple languages. If you need translated materials, please let us know and we will do our best to provide them for you.

At Ocean Health Initiative, we believe that language should never be a barrier to quality healthcare. We are committed to providing language assistance services to our patients, so they can get the care and support they need, in the language they speak. Thank you for choosing Ocean Health Initiative as your healthcare provider.
